GENERATOR INSTALLATION

Permit Application Submittal Requirements:

1. Completed Application for Permit form.
2. Initial minimum Application Fee: \$150.00
Note: The total permit fee may exceed the initial application fee. The balance will be due at time of permit issuance. Village fee schedule is available upon request.
3. Three (3) copies of electrical detail drawing to include the following:
 - a. Manufacturer's specifications for the proposed generator installation.
 - b. Provide electrical panel schedule indicating loads to be connected to generator.
 - c. Provide service grounding/bonding detail to include two (2) service ground rods (minimum six (6) feet apart).
 - d. If applicable, provide sizing for generator system bonding jumpers (i.e. water piping, gas piping, service raceway conduits, low voltage systems).
4. Three (3) copies of Plat of Survey showing the following:
 - a. Legal property description.
 - b. Location of principle building and any other existing accessory buildings/structures on the property.
 - c. Rear yard location of the proposed generator installation, indicating distances from lot lines and easement lines.
 - d. Location of any well, septic field, floodplain, wetland or waterway buffer on or within 100' of the proposed generator installation.
 - e. Location of the proposed generator installation shall not block any natural drainage.
5. Electrical Contractor License and Certificate of Liability Insurance.
6. Health Department approval of proposed location of structure (Municipal Site Evaluation):

DuPage County Health Department: 630-682-7400
(request an Environmental Health Specialist)
<http://www.dupagehealth.org>

Kane County Health Department: 630-208-3801 or 847-888-6450
<http://www.kanehealth.com>
7. Homeowners Association approval, if applicable.
8. Historic Sites Commission approval, if applicable.

Inspection Requirements:

1. Generator Installation/Grounding, Gas Service, Transfer Switch Equipment:
On-site inspection of generator and related equipment installation. Witness generator operation test, or electrician to provide report documenting generator test and operation compliance.
2. Final: If necessary or applicable, any required electrical/gas terminations requiring inspection that were not complete at the time of initial generator install inspection.

INSPECTIONS REQUIRE 24 HOUR NOTICE

APPLICANT IS RESPONSIBLE FOR SCHEDULING INSPECTIONS
